

ELLY CLINTON OYAMO

DATA ANALYST | NETWORK SYSTEMS ENGINEER

+254 706 037 750 | oyamo.ellie@gmail.com | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven *BSc Mathematics and Computer Science* student with strong analytical, computational, and problem-solving skills. Passionate about *Data Analysis* and *Network Systems Engineering*, with the ability to apply mathematical and technological concepts to solve real-world problems. Skilled in data interpretation, statistical analysis, networking concepts, programming, and system administration. Able to transform complex data into meaningful insights and support efficient technological solutions. A highly motivated, adaptable, and fast-learning individual committed to continuous professional growth and innovation in the fields of technology and data science.

WORK EXPERIENCE

Artax Networks Limited.

Network Systems Engineer

2025 – Present

- Installed, Configured and Maintained routers, switches and other network hardware to ensure reliable connectivity across clients' sites.
- Managed structured cabling systems including ADSS, Ethernet and fiber optic cables, performing terminations, testing and troubleshooting.
- Configured network settings, IP schemes, VLANs and routing protocols to optimize network performance and security.
- Monitored and diagnosed network issues using diagnostic tools, resolving connectivity and performance problems efficiently.
- Conducted rack mounting and organization of network devices, ensuring proper airflow, labeling and accessibility.
- Assisted in deploying and maintaining LAN/WAN infrastructure, including wireless access point network management systems.
- Documented network configurations, changes and standard operating procedures to support seamless system administration and troubleshooting.

EDUCATION

Maseno University

2021 - Present

Bachelor of Science in Mathematics and Computer Science

- Specialized in data structures, statistical analysis, object-oriented programming, and agile practices.
- Capstone project focused on predictive modelling using Python and SQL.
- Set to graduate this December.

SECONDARY EDUCATION

OLM-RINGA BOYS' HIGH SCHOOL

2017- 2020

- Attained a mean grade of B(Plain)

TECHNICAL SKILLS

Languages: C#, JavaScript, PHP, SQL, Java, Python

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: ASP.NET Core, Node.js, Spring Boot, PHP, Django

Databases: MySQL, PostgreSQL, Firebase, MongoDB, SQL Server

Tools: Git, GitHub, Postman, Visual Studio, VS Code, Figma, Power BI, Advanced Excel

Concepts: REST APIs, MVC, JWT Auth, CRUD, Secure Coding, Responsive Design, IoT (Arduino), Penetration Testing

SOFT SKILLS

Problem-Solving & Critical Thinking · Team Collaboration & Communication · Time Management & Accountability · Adaptability & Continuous Learning

PROJECTS

❖ E-Commerce Web Store

2026

React · ASP.NET Core · MySQL · JWT · M-Pesa Daraja API

- Built a full-stack online store with product listings, secure user authentication, and order tracking.
- Integrated M-Pesa Express (STK Push) for seamless mobile checkout — a real-world Kenyan payment flow.
- Ensured full mobile responsiveness, client-side input validation, and post-payment order management.

❖ Custom Responsive Portfolio Website

2025

React · Tailwind CSS · Vercel

- Designed and built a modern personal portfolio showcasing projects, skills, and contact information.

- Implemented smooth section navigation, responsive grid layouts, and project filtering by category.
- Deployed on Vercel with continuous deployment from GitHub.

❖ Task Management REST API

2024

Node.js · MongoDB · REST API

- Developed a RESTful API for agile team task management with full CRUD operations.
- Implemented JWT-based authentication, request validation, and structured error handling.
- Documented endpoints using Postman; designed for easy integration with any front-end client.

❖ Smart Home Controller

2023

Arduino · IoT · Sensors

- Built an Arduino-based sensor system to monitor and automate plant moisture levels in real time.
- Integrated humidity and moisture sensors with alert logic, demonstrating applied IoT skills.
- Reflects keen personal interest in smart home technology and embedded systems.

❖ Cybersecurity Audit & Penetration Testing

2023

Network Security · Pen Testing

- Conducted a structured network security assessment identifying vulnerabilities in test environments.
- Produced a detailed audit report with remediation recommendations, grounded in secure coding principles.

❖ Data Analysis Portfolio

2023 – Present

Python (Pandas, NumPy) · Power BI · SQL (PostgreSQL)

- Completed multiple end-to-end data projects covering data cleaning, exploratory analysis, and visualization.
- Built interactive Power BI dashboards to surface actionable business insights from raw datasets.
- Applied statistical methods including predictive modelling using Python and SQL as part of coursework.

CERTIFICATIONS

- IBM SkillsBuild Certification — IBM (2023)
- Advanced Data Analytics Specialization — Google / Coursera (2023)

EXTRACURRICULAR & INTERESTS

- Member, Google Developer Student Clubs (GDSC) — Maseno University chapter.
- Participated in virtual hackathons and open-source contributions on GitHub.
- Keen interest in smart home technology, AI-driven development, and tech-for-good initiatives.

LANGUAGES

English — Fluent · Kiswahili — Fluent
